Tom Wesselmann at Mitchell-Innes & Nash

Tom Wesselmann is one of the fathers of Pop Art. Using collage, assemblage, and iconic shaped canvases Wesselmann created a new vocabulary of painting entirely. On view at Mitchell-Innes and Nash is a retrospective of the artist's paintings that highlight techniques the artist pioneered. The show includes collage and assemblages from the 1960s that feature cut-outs from advertising billboards, molded plastic paintings, steel cut works, and his renowned shaped canvases.
